

## RADIOLOGY REPORT

		Record No.	ADC00122879
Name	<i>Krayyem Saadah</i>	Sex	
Date	April 17, 2024		
Referring Clinic	BAITNA HOME CARE COMPANY		
Referring Physician			
<b><u>Exam Name:</u></b> Ultrasound abdomen			
<b>TECHNIQUE:</b> Ultrasound examination of the abdomen was performed. Suboptimal/limited examination due to marked gaseous abdomen.			
<b>COMPARISON:</b> No prior similar images available for comparison.			
<b>FINDINGS:</b> The pancreatic area is obscured by abdominal gas. The partially visualized part of the liver appears grossly unremarkable. The patient have a history of previous cholecystectomy. The spleen is 9.6 cm in long axis, with no definite focal lesion within the provided images. The visualized bilateral kidneys show suggested relative renal fullness.			
<b>IMPRESSION:</b> Suboptimal/limited ultrasound examination of the abdomen due to marked gaseous abdomen, noting suggested relative renal fullness as described, for clinical correlation.			
<b>Verified and Signed</b>		Date:	<b>April 18, 2024</b>
